

DEEPANSH GUPTA

Mobile App Developer

☎ +91-7454058903 ✉ deepansh.gup124@gmail.com 🔗 linkedin.com/deepanshdev 🐙 github.com/deep4nsh

Summary

Flutter Android App Developer with 1 year of experience building cross-platform apps using Dart and Flutter. Strong in Firebase integrations, REST APIs, payment and SMS integrations (Razorpay, Twilio), UI/UX with Figma, and core DSA skills in C++. Passionate about creating responsive, user-focused mobile experiences.

Education

B.Tech Information Technology

ABES Engineering College, Ghaziabad

Graduation Expected: June 2027

CGPA: 8.07 / 10

Skills

Programming & Querying: Dart, JavaScript, TypeScript, Kotlin, C++ (DSA), Node.js

Frameworks / Tools: Flutter, React Native, ReactJs, Firebase (Auth, Firestore, Functions), REST APIs, Razorpay, Twilio

Dev Tools: Android Studio, Visual Studio Code, Git/GitHub

Design / Other: State Management, UI/UX (Figma)

AI Tools: Google Gemini, Warp, 365 Copilot, Cloud Firestore, Google Antigravity

Projects

Findom App 🐙 | *Flutter(Dart), Firebase(Auth, DB), Cloudinary, Algolia*

Aug 2025 - Present

- Home Feed: Real-time Finance Updates.
- Reminders Page: Custom tax deadlines, push notifications
- Settings: Dark mode, language (Hindi/English), notifications
- Updated circulars from Income Tax, GST.

Canteen Order Management App 🐙 | *Flutter (Dart), Provider, Razorpay*

Nov 2025

- Visual Menu: Browse mouth-watering menus with high-quality images and clear Veg/Non-Veg indicators.
- Live Order Tracking: Watch your order status change in real-time.
- Business Dashboard: Get a bird's-eye view of your business with daily stats.
- Order Management: Accept incoming orders with a single tap. Update status to "Preparing" and "Ready" to notify users.

Expense Splitting App 🐙 | *Flutter(Dart), Firebase(Auth, DB), Firebase Dynamic Links, Google ML*

Oct 2025

- Create Groups: Easily organize expenses by trips, housemates, or events.
- Deep Linking: Invite friends instantly via shareable links. No more manual adding!
- Split Your Way: Divide bills equally, unequally, or by exact amounts.
- Visual Analytics: Understand your spending habits with beautiful charts and insights.

Sortify 🐙 | *Google ML Kit, TensorFlow Lite, Google Gemini API*

Aug 2025

- On-Device ML: Instantly categorizes your photos (e.g., "Cat", "Food", "Beach") using Google ML Kit.
- AI Fallback: If the local model is unsure, Sortify seamlessly uses the **Gemini API** to provide a precise label (e.g., "Espresso" instead of "Unknown").
- People Hub: Automatically detects faces in your gallery and groups them together.
